General Project Information

Project Title: 2019 DRUG ERADICATION AND SPECIAL RESPONSE TEAM

Subgrant Recipient: Nassau County Board of County Commissioners

Implementing Agency: Nassau County Sheriff's Office

Project Start Date: 10/1/2019 **End Date:** 9/30/2021

Problem Identification

Nassau County is surrounded by deep water on the north and west borders, the Atlantic Ocean on the eastern border and Duval County on the southern border. Interstate 95 and US Highway 1 extend north and south through the entire County. The County serves as a picturesque retreat for tourist and transient populations interested in North Florida, areas within the Jacksonville Metropolitan Statistical Area (MSA), South Georgia and the Kings Bay Naval Submarine Base. The numerous modes of transportation that surround and/or encircle Nassau County provide the routing for drugs and illegal activities in the County.

Illegal drug activity adversely affects every community within Nassau County. According to the Bureau of Economic and Business Research (BEBR) it is estimated that Nassau County is home to approximately 85,070 residents. The east side of Nassau County embraces the historic and coastal attributes and serves as a safe haven to approximately 500,000 tourists and transients each year, along with 200,000 day visitors each year. The drug industry thrives on both the permanent and temporary residents of the County. The west side of Nassau County is rural in nature and experiences methamphetamine labs and cultivation of marijuana. Certainly the portability and ease in manufacturing methamphetamine has added to the progression of illicit drugs into the east side of Nassau County. Drug Unit operations both investigative and covert are ongoing and therefore funding for Drug Unit is necessary.

In 2018, Nassau County experienced an increase in violent crime arrests and fraud cases with 24 forcible sex offenses, 168 aggravated assaults and 3 aggravated stalking cases. Of the 168 aggravated assault cases, 55 were domestic violence related; of the 277 simple assaults reported, 277 were domestic violence related, with 3 threat/intimidation cases, and 3 simple stalking cases. Out of the 289 domestic violence incidents reported, there was one related homicide.

Nassau County has seen a recent influx of Fentanyl laced heroin and methamphetamine being trafficked into the county. An increased demand has struck all geographical areas of the county due to falling prices of the aforementioned narcotics and a 3.58% increase in population within the last year.

The grant funding will be used to enhance the equipment capabilities currently used by the Nassau County Sheriffs Office (NCSO) Narcotics Unit, K9 Unit, and the NCSO Special Response Team (SRT). These units primarily focus on violent crime and the interception of illegal narcotics and weapons that are trafficked into Nassau County. The Special Response Team is a group of highly trained and dedicated individuals who utilize special weapons and tactics to complete several missions within the Sheriffs department. The SRT, in conjunction with the Narcotics unit and the K9 unit operate primarily, surreptitiously during the night time hours to interrupt ongoing

Florida Department of Law Enforcement Justice Assistance Grant - County-wide

Reign 2: Paled Overvey

criminal activity. The focus is to not only intercept illegal narcotics, but to obtain intelligence to pass on to our federal partners in order to prevent domestic terrorism.

The equipment will aid in the apprehension of suspects engaged in violent crime, the narcotics trade or both. This equipment purchases will significantly enhance officer safety. The NCSO K9 Unit routinely assists the Narcotics Division in the detection of illegal narcotics as well as the tracking of suspects who flee. The equipment requested will assist the Nassau County Sheriffs Office Special Response Team who conduct high risk operations on known drug houses and suspects who have active felony warrants for sale of illegal narcotics.

This item will address the issue by supporting narcotics and SRT detectives/deputies by increasing the range from which operations can be effectively completed and provide real-time actionable information from a covert/concealed safe position in an effort to curtail the influx of illegal narcotics and violent crime into Nassau County.

If not approved for the grant funding, completing operational objectives could pose a greater threat to officers and the general public alike by requiring the work be completed by boots on the ground instead of a highly effective machine operated by trained personnel from afar.

By not receiving the requested equipment, officer and civilian safety will be greatly reduced. SRT members, narcotics detectives, and K9 officers rely heavily on covert equipment and the advantage given by new technology to conduct operations in a manner that puts the safety of civilians and officers first. When conducting operations involving search warrants, high risk arrest warrants, barricaded suspects, hostage situations, or conducting surveillance on violent offenders or narcotics cases, the requested equipment will minimize the danger to officers and civilians alike. Without the equipment officers expose themselves to a greater risk.

The anticipated goal/outcome of this project is to see an increase in narcotics/violent crime related arrests, as well as, an increase in seizures of illegal narcotics and weapons, and a decrease in the instances of officer/innocent civilian injuries. With a proactive approach, the drug related deaths in the county are anticipated to drop. Information obtained during the aforementioned investigations will be passed along to other divisions within the sheriffs office along with our federal partners to continue to combat these issues beyond our borders.

The performance of this goal will be monitored by supervisors with the narcotics unit/ SRT chain of command. These supervisors will track the number of arrests, seizures (guns, cars, narcotics) and the intelligence gained from each case. These statistics will be totaled and reviewed on a monthly basis.

The NCSO has a Meth Mitigation Plan in operation for the Agency.

Project Summary (Scope of Work)

The NCSO serves as the law enforcement authority for unincorporated Nassau County, for the town of Hilliard and the town of Callahan.

Deputies assigned to the SRT will utilize the equipment for calls for service involving barricaded suspects, high risk search warrants, high risk felony warrants, hostage situations, and violent offender woodland searches. The equipment will greatly

enhance each officers safety by allowing the deputies to conduct search operations from a safe position. The narcotics detective will benefit from the ability to provide real time information in complete darkness to aid in the apprehension of individuals engaged in criminal activity from a concealed distance. These officers will also have access to the K9 division to assist with the detection and apprehension of drug offenders.

For the period of October 1, 2018, through September 30, 2019, the K9 Unit had 127 narcotic deployments, 9 human tracking deployments, and 99 training exercises. The Narcotics Unit was involved in 191 new investigations and 231 investigations were closed during this period. 256 individuals were arrested based on narcotics unit activity during this time period and \$9,658.00 was seized.

2020 JAGC funds will be used to:

The non-Federal entity uses such procedures in order to expedite the completion of its lowest-dollar small purchase transactions and minimize the associated administrative burden and cost. The micro-purchase threshold is set by the Federal Acquisition Regulation

in 48 CFR Subpart 2.1 (Definitions). It is \$3,500 except as otherwise discussed in Subpart 2.1 of that regulation, but this threshold is periodically adjusted for inflation.

Modified Total Direct Cost (MTDC) means all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and up to the first \$25,000 of each subaward (regardless of the period of performance of the subawards under the award). MTDC excludes equipment, capital expenditures, charges for patient care, rental costs, tuition remission, scholarships and fellowships, participant support costs and the portion of each subaward in excess of \$25,000. Other items may only be excluded when necessary to avoid a serious inequity in the distribution of indirect costs, and with the approval of the cognizant agency for indirect costs.

Non-Federal entity is a state, local government, Indian tribe, institution of higher education (IHE), or nonprofit organization that carries out a Federal award as a recipient or subrecipient.

Non-federal pass-through entity is a non-Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program; the Florida Department of Law Enforcement (FDLE) is the non-federal pass-through entity for this agreement, also referred to as the State Administering Agency (SAA).

Period of performance means the time during which the non-Federal entity may incur new obligations to carry out the work authorized under the Federal award. The Federal awarding agency or pass-through entity must include start and end dates of the period of performance in the Federal award (see §§200.210 Information contained in a Federal award paragraph (a)(5) and 200.331 Requirements for pass-through entities, paragraph (a)(1)(iv)).

Protected Personally Identifiable Information (PII) means an individual's first name or first initial and last name in combination with any one or more of types of information, including, but not limited to social security numbers; passport numbers; credit card numbers; clearances; bank numbers; biometrics; date and place of birth; mother's maiden name; criminal, medical, and financial records; and educational transcripts. This does not include PII that is required by law to be disclosed. (See also § 200.79 Personally Identifiable Information (PII)).

Questioned cost means a cost that is questioned by the auditor because of an audit finding 1) that resulted from a violation or possible violation of a statute, regulation, or the terms and conditions of a Federal award, including for funds used to match Federal funds; 2) where the costs, at the time of the audit, are not supported by adequate documentation; or 3) where the costs incurred appear unreasonable and do

not reflect the actions a prudent person would take in the circumstances.

Simplified acquisition threshold means the dollar amount below which a non-Federal entity may purchase property or services using small purchase methods. Non-Federal entities adopt small purchase procedures in order to expedite the purchase of items costing less than the simplified acquisition threshold. The simplified acquisition threshold is set by the Federal Acquisition Regulation at 48 C.F.R. Subpart 2.1 (Definitions) and in accordance with 41 U.S.C. § 1908. As of the publication of this part, the simplified acquisition threshold is \$250,000, but this threshold is periodically adjusted for inflation. (Also see definition of Micro-purchase, 2 C.F.R.§ 200.67)

Subaward is an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual who is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.

Subrecipient means a non-Federal entity that receives a subaward from a pass-through entity to carry out part of a Federal program; but does not include an individual that is a beneficiary of such program. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency.

Supplies means all tangible personal property other than those described in §200.33 Equipment. A computing device is a supply if the acquisition cost is less than the lesser of the capitalization level established by the non-Federal entity for financial statement purposes or \$5,000, regardless of the length of its useful life. See also §§200.20 Computing devices and 200.33 Equipment.

SECTION I: TERMS AND CONDITIONS

Section 1324(a), Section 274(A) of the Immigration and Nationality Act ("INA"). The Department shall consider the employment by any contractor of unauthorized aliens a violation of Section 274(A) of the INA. SECTION VI: SUBAWARD PROCUREMENT AND COST PRINCIPLES

1.0 Procurement Procedures - Subrecipients must have written procedures for procurement transactions. Procedures must conform to applicable Federal law and the standards in 2 C.F.R. §§ 200.318-326.

This condition applies to agreements that OCJG considers to be a procurement "contract", and not a second tier subaward.

The details of the advance approval requirement to use a noncompetitive approach in a

procurement contract under this award are posed on the OJP website at https://ojp.gov/funding/Explore/NoncompetitivePr ocurement.htm.

Additional information on Federal purchasing guidelines can be found in the Guide to Procurements Under DOJ Grants and Cooperative agreements at https://ojp.gov/funding/Implement/Resources/GuideToProcurementProcedures.pdf.

- 2.0 Cost Analysis A cost analysis must be performed by the subrecipient if the cost or price is at or above the \$35,000 acquisition threshold and the contract was awarded non-competitively in accordance with s. 216.3475, F.S. The subrecipient must maintain records to support the cost analysis, which includes a detailed budget, documented review of individual cost elements for allowability, reasonableness, and necessity. See also: Reference Guide for State Expenditures.
- 3.0 Allowable Costs Allowance for costs incurred under the subaward shall be determined according to the general principles and standards for selected cost items set forth in the DOJ Grants Financial Guide, 28 C.F.R. § 66, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments", and 2 CFR Subpart E, "Cost Principles".
- 4.0 Unallowable Costs Payments made for costs determined to be unallowable by either the Federal awarding agency, or the Department, either as direct or indirect costs, must be refunded (including interest) to FDLE and the Federal Government in accordance with instructions that determined the costs are unallowable unless state or Federal statute or regulation directs otherwise. See also 2 C.F.R. §§ 200.300-309.
- 5.0 Indirect Cost Rate A subrecipient that is eligible to use the "de minimis" indirect cost rate described in 2 C.F.R. § 200.414(f), and elects to do so, must advise OCJG in writing of both its eligibility and its election, and must comply with all associated requirements in the 2 C.F.R. § 200 and Appendix VII.
- 6.0 Sole Source If the project requires a non-competitive purchase from a sole source, the subrecipient must complete the Sole Source Justification for Services and Equipment Form and submit to OCJG upon application for pre-approval. If the subrecipient is a state agency and the cost meets or exceeds \$250,000, the subrecipient must also receive approval from the Department of Management Services (DMS) (s.

287.057(5), F.S.). The Sole Source form must be signed by the subrecipient or implementing agency chief official or chief official designee. Additional details on the sole source requirement can be found at 2 C.F.R. § 200 and the DOJ Grants Financial Guide.

7.0 Personal Services - Subrecipients may use grant funds for eligible personal services including salaries, wages, and fringe benefits, including overtime in accordance with the DOJ Grants Financial Guide Section 3.9 - Compensation for Personal Services, consistent with the principles set out in 2 C.F.R. § 200, Subpart E and those permitted in the federal program's authorizing legislation. Subrecipient employees should be compensated with overtime payments for work performed in excess of the established work week and in accordance with the subrecipient's written compensation and pay plan.

Documentation - Charges for salaries, wages, and fringe benefits must be supported by a system of internal controls providing reasonable assurance that charges are accurate, allowable, and properly allocated. Documentation supporting charges must be incorporated into the official records of the organization.

Charges made to the Personnel Budget Category must reasonably reflect the total time and activity for which the employee is compensated by the organization and cover both federally funded and all other activities. The records may include the use of subsidiary records as defined in the organization's written policies. Where grant subrecipients work on multiple grant programs or cost activities, documentation must support a reasonable allocation or distribution of costs among specific activities or cost objectives.

8.0 Contractual Services - The subrecipient must maintain written standards of conduct covering conflicts of interest and governing the actions of its employees engaged in the selection, award and administration of contracts as described in 2 C.F.R. § 200.318, General procurement.

Requirements for **Contractors** Subrecipients - The subrecipient assures the compliance of all contractors with the applicable provisions of Title I of the Omnibus Crime Control and Safe Streets Act of 1968, as amended 42 U.S.C. § 3711 et seq.; the provisions of the the DOJ edition of Grants FinancialGuide(https://ojp.gov/financialguide/doj/ pdfs/DOJ FinancialGuide.pdf); and all other applicable federal and state laws, orders, circulars, or regulations. The subrecipient must pass-through all requirements and conditions applicable to the federal grant award/subaward to

any subcontract. The term "contractor" is used rather than the term "vendor" and means an entity that receives a contract as defined in 2 C.F.R. § 200.22, the nature of the contractual relationship determines the type of agreement.

of Consultant Approval Contracts Compensation for individual consultant services must be reasonable and consistent with that paid for similar services in the marketplace. The Federal awarding agency and pass-through entity must review and approve in writing all consultant contracts prior to employment of a consultant when the individual compensation rate exceeds \$650 (excluding travel and subsistence costs) per eight-hour day, or \$81.25 per hour. A detailed justification must be submitted to and approved by FDLE, who will coordinate written approval of the Federal awarding agency, prior to subrecipient obligation or expenditures of such funds. Approval shall be based upon the contract's compliance with requirements found in the Financial Guide Section 3.6 Consultant Rates, 28 C.F.R. § 66, and applicable state statutes. The Department's approval of the subrecipient agreement does not constitute approval of individual consultant contracts or rates. If consultants are hired through a competitive bidding process (not sole source), the \$650 threshold does not apply.

FFATA Reporting Requirements - Subrecipients that enter into subawards of \$25,000 or more should review the Federal Funding Accountability and Transparency Act of 2006 (FFATA), website for additional reporting requirements at https://ojp.gov/funding/Explore/FFATA.htm

- 9.0 Travel and Training The cost of all travel shall be reimbursed according to the subrecipient's written travel policy. If the subrecipient does not have a written travel policy, cost of all travel will be reimbursed according to State of Florida Travel Guidelines § 112.061, F.S. Any foreign travel must obtain prior written approval from the Federal awarding agency and pass-through entity.

Publication or Printing of Materials - Publication costs for electronic and print media, including distribution, promotion, and general handling are allowable. If these costs are not identifiable with a particular direct cost objective, it should be allocated as indirect costs. Publication includes writing, editing, and preparing the illustrated material (including videos and electronic mediums).

Subrecipients must request pre-approval in writing for page charges for professional journal publications. All publication materials must comply with provisions in 2 C.F.R. § 200.461 and DOJ Grants Financial Guide, Section 3.9; Allowable Costs – Publication.

Subrecipients must submit for review and approval one (1) copy of any written materials to be published, including web-based materials and website content, to be paid under this award at least thirty (30) days prior to the targeted dissemination date.

"This project was supported by Award No. 2019-MU-BX-0036 awarded by the Bureau of Justice Assistance, Office of Justice programs. The opinions, findings, and conclusions or recommendations expressed in this publication/program/exhibition are those of the authors and do not necessarily reflect the views of the Department of Justice or grantmaking component."

Any website funded in whole or in part under this award must include the same statement on the home page, on all major entry pages (i.e., pages (exclusive of documents) whose primary purpose

is to navigate the user to interior content), and on any pages from which a visitor may access or use a web-based service, including any pages that provide results or outputs from the service.

Patents - Subrecipients are subject to applicable regulations governing patents and inventions, including government wide regulations issued by the Department of Commerce (37 C.F.R. § 401 and 2 C.F.R. § 200.315(c)).

Subrecipients must promptly and fully report to FDLE and the Federal awarding agency if any program produces patentable items, patent rights, processes, or inventions, in the course of work sponsored under this award.

Criminal Intelligence Systems subrecipient agrees that any information technology system funded or supported by the Office of Justice Programs funds will comply with 28 C.F.R. § 23, Criminal Intelligence Systems Operating Policies, if the Office of Justice Programs determines this regulation to be applicable. Should the Office of Justice Programs determine 28 C.F.R. § 23 to be applicable, the Office of Justice Programs may, at its discretion, perform audits of the system, as per 28 C.F.R. § 23.20(g). Should any violation of 28 C.F.R. § 23 occur, the subrecipient may be fined as per 42 U.S.C. § 3789g(c)-(d). The subrecipient may not satisfy such a fine with federal funds.

The subrecipient understands and agrees that no awarded funds may be used to maintain or establish a computer network unless such network blocks the viewing, downloading, and exchanging of pornography. In doing so the subrecipient agrees that these restrictions will not limit the use of awarded funds necessary for any federal, state, tribal, or local law enforcement agency or any other entity carrying out criminal investigations, prosecutions, or adjudication activities.

State IT Point of Contact - The subrecipient must ensure that the State IT Point of Contact receives written notification regarding any information technology project funded by this grant during the obligation and expenditures period. This is to facilitate communication among local and state governmental entities regarding various information technology projects being conducted with these grant funds. In addition, the subrecipient must maintain an administrative file documenting the meeting of this requirement. For a list of State IT Points of Contact, go to https://it.ojp.gov/technology-contacts.

The State IT Point of Contact will ensure the

subrecipient's project follows a statewide comprehensive strategy for information sharing systems that improve the functioning of the criminal justice system, with an emphasis on integration of all criminal justice components, law enforcement, courts, prosecution, corrections, and probation and parole.

Interstate Connectivity - To avoid duplicating existing networks or IT systems in any initiatives funded by the Bureau of Justice Assistance for law enforcement information sharing systems which involve interstate connectivity between jurisdictions, such systems shall employ, to the extent possible, existing networks as the communication backbone to achieve interstate connectivity, unless the subrecipient can demonstrate to the satisfaction of the Bureau of Justice Assistance that this requirement would not be cost effective or would impair the functionality of an existing or proposed IT system.

ADP Justification - The subrecipient must complete an Automated Data Processing (ADP) equipment and Software and Criminal Justice Information and Communication Systems Request for Approval form if the purchase of any ADP equipment is to be made. This form must be submitted upon application if applicable and preapproval must be obtained. ADP Justification must be signed by the subrecipient or implementing agency chief official or an individual with formal, written signature authority for the chief official.

Emergency communications activities include the purchase of Interoperable Communications Equipment and technologies such as voice-over-internet protocol bridging or gateway devices, or equipment to support the build out of wireless broadband networks in the 700 MHz public safety band under the Federal Communications Commission (FCC) Waiver Order. SAFECOM guidance can be found at

https://www.dhs.gov/publication/funding-documents.

Subrecipients interested in developing a public safety broadband network in the 700 MHz band in their jurisdictions must adhere to the technical standards set forth in the FCC Waiver Order, or any succeeding FCC orders, rules, or regulations pertaining to broadband operations in the 700 MHz public safety band. The subrecipient shall also ensure projects support the Statewide

Communication Interoperability Plan (SCIP) and are fully coordinated with the full-time Statewide Interoperability Coordinator (SWIC). If any future regulatory requirement (from the FCC or other governmental entity) results in a material technical or financial change in the project, the associated subrecipient should submit documentation, and other material, as applicable, for review by the SWIC to ensure coordination. Subrecipients must provide a listing of all communications equipment purchased with grant award funding (plus the quantity purchased of each item) to FDLE once items are procured during any periodic programmatic progress reports.

15.0 Global Standards Package - In order to promote information sharing and enable interoperability among disparate systems across the justice and public safety community, OJP requires the grantee to comply with DOJ's Global Justice Information Sharing Initiative (DOJ's Global) guidelines and recommendations for this particular grant. Grantee shall conform to the Global Standards Package (GSP) and all constituent elements, where applicable, as described at https://it.ojp.gov/gsp. Grantee shall document planned approaches to information sharing and describe compliance to the GSP and appropriate privacy policy that protects shared information, or provide detailed justification for why an alternative approach is recommended.

16.0 Unreasonable Restrictions on Competition -

The training is provided free of charge online through BJA's Center for Task Force Integrity and Leadership (www.ctfli.org).

All current and new task force members are required to complete this training once during the life of the award, or once every four years if multiple awards include this requirement. This training addresses task force effectiveness as well as other key issues including privacy and civil liberties/rights, task force performance measurement, personnel selection, and task force oversight and accountability.

When FDLE awards funds to support a task force, the subrecipient must compile and maintain a task force personnel roster along with course completion certificates.
