Good Morning,

I have a citation that will expire on April 2nd, they have been cited for Engineering ordinance 2012-10 Section 38.03 & 38.04 (attached for your review). Also, with the current state, all board cases are being moved to June. I sent out an email yesterday stating that Trish with Gillette and associates called my office attempting to help G and H to obtain the proper permit. I am quite often in the area to see that they are still hauling dirt off site. I witnessed two trucks yesterday. Unless you give me further directions I will continue to monitor when in the area and report if needed.

Thank you,

Robert Bostick
