Mr. Companion,

I am sorry for not responding to you earlier but I did not receive your initial email; only just now saw the reply all from Mr. Pope. I am not sure why but some emails from your office don't get thru to my email. Just ask Chris Dixon; he and I have had several conversations and are puzzled by this virtual disconnect. Anyhow, with regard to your issue, we can assist in whatever way is needed, preferably thru a court order if not involving a statutory or county ordinance violation.

If you ever email and don't get a response please feel free to call me. I will talk to our IT people again and see if they can figure out what's going on with the emails.

Robert/Lt. Graham,

I spoke with Mr. Mullin. Since this is in the LDC, we will have to go about it through Code Enforcement first and then pursue an adjunction.

Robert/Valerie,

Let's talk about how to proceed in moving forward with enforcement action.

Lt. Graham,

I am not sure who I need to notify. Please point me in the right direction. Engineering posted a stop work order and Code Enforcement has followed up numerous times on a borrow pit operating without a permit on the west side off of Sandy Ford Road. Is there another step the Sheriffs office can assist with to make sure the operations cease?

I received a phone call from Trish, @ Gillette and assc. Wanting to speak with someone about getting the proper permits for the ponds before any further action takes place. I referred her to the Engineering Dept. She said she would email Robert Companion and Becky.
