Bobby,

We have received an update from the engineer but it is still under review by the SJRWMD compliance group. I will leave it up to Robert on the next steps since they are continuing to operate.

Caleb:

I finally heard back from the District this morning and I spoke with Stacey Leitheiser regarding their needs and explained the situation at hand. Stacey's compliance department has asked for a State of Affairs summary and some pictures so they can evaluate what should be done and if there are to be any fines levied. We will get to working on that and I may have some questions for you regarding time frames so we're all on the same page. Once we're done there, I'll have to see if Pierre gets another crack at it (attached are his original comments). Thanks.

Good afternoon Stacey,

I issued an RAI for the subject application and received a phone call from the consultant stating that he is unable to respond to the RAI because the borrow pit excavation was completed prior to the submittal of the application. It appears that the applicant was, under the pressure of Nassau County, forced to submit an application to the district. Please contact the consultant. He wants to know how to proceed to resolve this matter. He is copied on this email.

If you have any questions, please call me.

Thank you,

Pierre
