Let's send to Code Board, if you feel it is appropriate. This operator continues to ignore the rules, not only of Nassau County, but also SJRWMD. I am not sure what needs to happen to enforce (sheriffs office?) but let's follow the process we have.

Good Morning,

Normally my job is to get the violator in contact with your department to start the process of compliance, once that has happened I close my case.

I issued a Notice of Violation 3.16.20 due to the stop work order your department issued on 3.11.20. The case is pending on our end since they made contact with Engineering and Code through Gillette & Associates. My next step in the process would be to request a code board hearing. So far with this pandemic March, April, May and June have been cancelled and pushed to July. To be able to request July we need to get it post marked by 06.08.2020 or posted on the property.

I'm not sure how or who would enforce a stop work order that is being disobeyed. Code has never come across that situation.

Stacey:

I asked Nassau County if they had an update/confirmation that work at the site had ceased. They sent an inspector out there today and attached are pictures of the site activity. I was told by the owner that activity had stopped, but it appears it has not.
