Nassau County Vaccination Process

Nassau County Emergency Management, in cooperation with the Florida Department of Health in Nassau County, have developed a plan and process for the distribution of COVID 19 vaccinations. The following information provides the step-by-step process for individuals to;

- Register for the opportunity to make an appointment for vaccination,
- Reserve a time and date for the vaccination, and
- Obtain further information on the vaccination process.

Nassau County Vaccination Process

Register for the opportunity to make an appointment for vaccination

- Individuals who are within the targeted group (age or occupation) will be asked to visit the Nassau County Emergency Management website (onenassau.com) and follow a link to the Eventbrite page.
- Individuals who follow the link to Eventbrite will be asked to provide appropriate information and will be provided with a virtual ticket indicating that they will be able to call into the Nassau County Emergency Management Citizens Information Center (CIC) to secure an appointment for vaccination.
- It is requested that only individuals who are part of the target group preform the above process and that they continue through the entire process to avoid having available vaccine, and times and dates to obtain vaccination, which are not utilized.

Nassau County Vaccination Process

Reserve a time and date for the vaccination

- Once the individual obtains a “ticket”, they will be provided with the information to call into the NCEM Citizens Information Center to reserve a time and date to have the vaccination administered.
- The individual will be provided with all of the appropriate information on location, time, date, and needed information to complete the process during the vaccination.
- Again, it is very important that individuals who make an appointment to be vaccination complete the entire process to ensure that all of the available vaccine is utilized in the safest and most efficient manner.
- Information on the second vaccine in the current two vaccine protocol will be provided by the FDOH – Nassau.

Nassau County Vaccination Process

Obtain further information on the vaccination process

- The Nassau County Emergency Management Citizens Information Center is being staffed with NCEM Staff, Nassau County Sheriff's Office personnel, and Volunteers affiliated with the Emergency Operations Center.
- Individuals who call into the Citizens Information Center can perform the following tasks;
- Obtain general information on the vaccination process,
- Obtain assistance in registering for the opportunity to make an appointment,
- Obtain the time and date for the vaccination once they have registered,
- Obtain follow up information and further guidance and safety information on COVID 19.

Nassau County Vaccination Process

Public Information, Social Media, and Press Releases

- Information provided to the public as it relates to COVID 19 vaccinations will be released through the OneNassau, onenassau.com and #onenassau platforms.
- The purpose of this process is to ensure that a consistent, accurate, and singular message is provided to reduce confusion and avoid ineffective messaging.
- In addition to the onenassau platform, everbridge, nixel, and next door applications will be used to provide information on additional vaccination opportunities, up to date information on vaccine questions, and continuing COVID 19 information.
- Press releases will continue to be provided through the Nassau County Emergency Management Joint Information Center, which will be coordinated by the NCEM Public Information Officer.

The EMAP Standard

In conclusion, as we move into the next phase of the COVID 19 pandemic, Nassau County Emergency Management, Florida Department of Health in Nassau County, and all of the partner governmental, non-profit, volunteer, and faith based organizations will remain committed to the safety and health of individuals in Nassau County. Although all of the members of these agencies and organizations have been working diligently to get to this point in the process, I would like to acknowledge the following NCEM personnel who have gone over and above to ensure the best service to Nassau County.

- Martha Oberdorfer, NCEM Senior Planner and Public Health Specialist
- Mark Wilson, NCEM LMS and Information Technology Specialist
- Gregory Cosgrove, NCEM Volunteer Coordinator
- Dave Richardson, NCEM Public Information Officer
