Gabe Porter

Development Review Engineer

Nassau County Engineering Services

96161 Nassau Place | Yulee, FL 32097

Mr. Porter,

Thank you for your assistance regarding Sunowa Springs "Request for golf cart use road". I appreciate your quick response and direction to expedite our request.

Sunowa Springs residents would like to be able to ride their golf carts on Sunowa Springs Trail. We have circulated and signed a petition requesting Nassau County Board of County Commissioners affirm our request. There are 67 adult signatures requesting golf cart use road approval. I will deliver the original signed petitions to your office today. Some of the petitions have one adult signature per page others have multiple adult signatures, per household, on one page.

I will post the ordinance information on our community Facebook page; allowing others to review the ordinance and process. I will also summarize our conversation and be certain to remind neighbors of the requirements for golf cart approval and safe operating requirements. Our community's ONLY goal is to be able to ride "traditional" golf carts or other golf carts within our neighborhood.

I would request that the Board of Commissioners office notify me when our community petition is to come before the Board. This will allow me ample time to notify our neighbors and make plans to attend myself. We sincerely appreciate your departments efforts, Commissioner Thomas Ford's work on the project and the Nassau County Board of Commissioners consideration. Please contact me with any further questions, concerns or directives. I look forward to our approval.

Sincerely,

Marsha Morrell
