

COMMUNITY PETITION REQUESTING CLOSED COMMUNITY ROAD DESIGNATION

June 3, 2021

Mr. Taco Pope
County Manager-Nassau County Florida

Commissioner Thomas Ford
District 4 County Commissioner-Nassau County Florida
96135 Nassau Place Suite 1
Yulee, FL 32097

Gentlemen,

The residents of Sunowa Springs Subdivision Bryceville, FL. would like to petition the county. Our community would like to be considered for a "closed community road designation". Sunowa Springs Trail is approximately 1.5 miles distance and a circular loop neighborhood. There is only one road entering or leaving our community. The traffic flow is considerably low, the road is paved and street signage is in place. We have spoken with Commissioner Thomas Ford, District 4, regarding this request.

The residents are making this request because we would like to be able to ride our golf carts within our community. Many residents have traditional "golf course" style golf carts; others have golf carts that may qualify as street approved. Many of our residents ride their golf carts daily for pleasure. We also utilize them frequently for events such as Halloween and Christmas Parades.

It is our understanding that an ordinance was passed allowing qualified communities to have closed road designation. There is criteria, in place, for utilization of golf carts on these designated roads. We believe we meet the criteria. Sunowa Springs residents are prepared to comply with all traffic laws and previous standards set forth by the county.

Please find enclosed the date, name, address and signature of Sunowa Springs residents that have joined together to support this request. Communication, among the residents, is taking place via our community Facebook page. Our Point of Contact for return communication or meeting requirement is listed immediately below:

Marsha Morrell
12355 Sunowa Springs Trail
Bryceville, FL 32009
904-219-4701

We look forward to your consideration and quick response regarding this petition request.

Yulee, FL 32097

Gentlemen,

The residents of Sunowa Springs Subdivision Bryceville, FL. would like to petition the county. Our community would like to be considered for a "closed community road designation". Sunowa Springs Trail is approximately 1.5 miles distance and a circular loop neighborhood. There is only one road entering or leaving our community. The traffic flow is considerably low, the road is paved and street signage is in place. We have spoken with Commissioner Thomas Ford, District 4, regarding this request.

The residents are making this request because we would like to be able to ride our golf carts within our community. Many residents have traditional "golf course" style golf carts; others have golf carts that may qualify as street approved. Many of our residents ride their golf carts daily for pleasure. We also utilize them frequently for events such as Halloween and Christmas Parades.

It is our understanding that an ordinance was passed allowing qualified communities to have closed road designation. There is criteria, in place, for utilization of golf carts on these designated roads. We believe we meet the criteria. Sunowa Springs residents are prepared to comply with all traffic laws and previous standards set forth by the county.

Please find enclosed the date, name, address and signature of Sunowa Springs residents that have joined together to support this request. Communication, among the residents, is taking place via our community Facebook page. Our Point of Contact for return communication or meeting requirement is listed immediately below:
