**Re: Crawford Road Impact Fee Justification**

Gentlemen:

I have prepared or caused to be prepared at my direction the impact fee utilization report for the above referenced project.

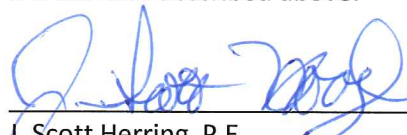

It is my opinion that the project described is one which constitutes a capital improvement to and/or an expansion of transportation facilities and does not constitute periodic or routine maintenance.

I have made an inquiry and due diligence to confirm the reliability and accuracy of the underlying supporting data. I further conclude that my analysis supports a conclusion that demand for transportation facilities has occurred and that said demand ("growth") occurred after the impact fees which are proposed to be used were collected.
