**ATTACHMENT A. TECHNICAL SPECIFICATIONS / SCOPE OF WORK****TECHNICAL SPECIFICATIONS FOR STORM DRAIN REPAIRS  
(VARIOUS LOCATIONS)**

The Contractor shall provide the following service for Nassau County to repair failed underground storm drain culverts in various locations. The culverts vary in size and length and each location will need to be verified by bidder. The ends of the culverts are open and have either MES or Sand Cement Headwalls as end treatments.

1. Furnish and install CIPP liner (through the method of Inverting with a resin impregnated felt tube pipe liner into the host pipe, and cure in place, in accordance with ASTM F-1216. The liner shall meet the materials requirements of FDOT Standard Specifications for Road and Bridge Construction, 2016, Section 948-9 and the Contractor shall provide material certifications from the manufacturer) the entire length of culvert in the following locations:
  - 1.) CR108 (River Road): 2.6 miles west of Rail Road Tracks
  - 2.) CR108 (River Road): 4.2 miles west of Rail Road Tracks
  - 3.) CR108 (River Road): 4.6 miles west of Rail Road Tracks
  - 4.) CR108 (River Road): 8.1 miles west of Rail Road Tracks
  - 5.) CR108 (River Road): 9.4 miles west of Rail Road Tracks
  - 6.) CR108 (River Road): 10.3 miles west of Rail Road Tracks
  - 7.) CR108 East (Hilliard to US 17): 2.4 miles east of Lessie Road
  - 8.) CR108 East (Hilliard to US 17): 1.0 miles west of Middle Road
  - 9.) CR108 East (Hilliard to US 17): 5.0 miles west of Middle Road
  - 10.) Lessie Road (Hilliard): .5 miles north of White Oak Road
2. Contractor to hydraulically de-silt the entire storm drain culvert prior to lining with CIPP liner and prior to installing the pipe liner, inspect the host pipe (by video inspection) and ensure that it is clean, dry and stable.
3. Contractor to provide post video inspection of complete repair.
4. All cost are to be included for this bid to include but not limited to mobilization and maintenance of traffic.
5. The repair must be warrantied for a minimum of one year for defects and workmanship.
6. Basis of Payment – Price and payment for pipe liner will be full compensation for furnishing and installing the pipe liner in accordance with the requirements of this Section, including all materials, labor, incidentals required for sealing cracks and joints in the existing pipe, sealing and grouting the annular space between the liner and interior of the host pipe, mobilization, maintenance of traffic and furnishing the videos of inspection(s) to Nassau County.
7. Payment is Lump Sum per individual location.

**TECHNICAL SPECIFICATIONS FOR WILL HARDEE ROAD STORM DRAIN REPAIR**

The Contractor shall provide the following service for Nassau County to repair a failed underground storm drain system that runs parallel to Will Hardee Road, Fernandina Beach, FL. The failed storm drain system is 24" CMP and approximately 145 feet in length and under a sidewalk.

1. Furnish and install 24" CIPP liner (through the method of Inverting with a resin impregnated felt tube pipe liner into the host pipe, and cure in place, in accordance with ASTM F-1216. The liner shall meet the materials requirements of FDOT Standard Specifications for Road and Bridge Construction, 2016, Section 948-9 and the Contractor shall provide material certifications from the manufacturer) from the inlet on the south side of the intersection of Will Hardee Road and Safe Harbor Lane for approximately 145 feet south to the inlet on the north side of the intersection of Will Hardee Road and Ciera Lane.
2. Contractor to hydraulically de-silt the entire storm drain system prior to lining with CIPP liner and prior to installing the pipe liner, inspect the host pipe (by video inspection) and ensure that it is clean, dry and stable.
3. Contractor to provide post video inspection of complete repair.
4. All cost are to be included for this bid to include but not limited to mobilization and maintenance of traffic.
5. The repair must be warrantied for a minimum of one year for defects and workmanship.
6. Basis of Payment – Price and payment for pipe liner will be full compensation for furnishing and installing the pipe liner in accordance with the requirements of this Section, including all materials, labor, incidentals required for sealing cracks and joints in the existing pipe, sealing and grouting the annular space between the liner and interior of the host pipe, mobilization, maintenance of traffic and furnishing the videos of inspection(s) to Nassau County.
7. Payment is Lump Sum.
