Sabrina

If the activities are do not include temporary construction that will be left on the beach overnight (Scaffolding, Stage, Tents etc.) and don't involve disturbance of the vegetated dune system or modification of the natural beach topography and would be no more than normal beach activities then the event and the activities would be exempt from permitting.

Hi Trey,

We were told that the Amelia Island Tourist Development Council has spoken with you about a proposed fat bike beach championship in Nassau County and that you have indicated they would not need any type of permit since the event will have no impact on the beach and coastal system. Could you confirm this for me? We need to prepare an agenda item for an upcoming County Commissioner meeting regarding use of the beach and just want to be sure the information we have been given is accurate.

Thank you.
