EXHIBIT A

A. Explain how the proposed change reflects to the established land use pattern.

The land use along US-1 in this area is primarily commercial. As you progress north into the Town of Callahan, these use intensify.

B. Identify isolated district(s) that would be created by proposed change.

None would be created in this area.

C. Explain how the proposed change would impact public facilities such as schools, utilities, streets and traffic.

Impact to public facilities would be minimal since the proposed use would be primarily private and would not draw from the general public utilities.

D. Describe the existing and proposed conditions for the subject property and surrounding properties.

Existing area along US-1 is primarily commercial, surrounded by residential and open rural. The proposed land condition would be compatible with adjacent properties.

E. Identify Comprehensive Plan policies that support proposed change, especially long range land use plans.

One of the goals of the Future Land Use Element is to accommodate land uses which create a sound revenue base and offer diverse opportunities with minimum adverse impacts on the natural environment.

F. Explain how changed or changing conditions make the approval of the proposed rezoning desirable.

The proposed property use along US-1 would be consistent along this section of US-1. It appears use along US-1 is gravitating toward commercial with some industrial.

G. Explain how the proposed change will not adversely influence living conditions in immediately adjacent neighborhoods.

The proposed use would be low impact and would not draw significant traffic or congestion. We do not feel the use would adversely influence surrounding living conditions.

H. Explain how the proposed change will comply with all Federal, State, and Local drainage requirements.

The propose change would comply with all Federal, State, and Local regulations. The property would be self-contained.

I. Explain how the proposed change will encourage the improvement or development of adjacent property in accordance with existing regulation.

We would hope Nassau County's intention would be to grow Commercial and/or Industrial Use along US-1, as this is a main traffic corridor serving the west side of the County. Other lands along may want to follow suit.

J. Explain why the property cannot be used with existing zoning.

The land use and zoning of the property does not allow for the use of trailer assembly, which would be applicable to Commercial land use.

K. Describe the scale of the proposed project with the needs of neighborhood and the needs to Nassau County.

The proposed project does not necessarily meet needs of the adjacent neighborhood, but does create jobs in Nassau County and would benefit the tax base. The commercial use of the land may provide needs to the neighborhoods at a later date.

L. Are there other sites in this general location with similar zoning?

Directly across US-1 (west side) is Commercial General zoning. Just to the North on US-1, there is Commercial Intensive and Commercial General zoning. This Commercial (plus Industrial) zoning continues to increase as you progress North on US-1, toward Callahan.
