

A photograph of a paved road in a residential area, identified as Summerwoods Rear Access Road. The road is made of asphalt and shows a transition point where the surface changes. On either side of the road, there are lush green trees and dense foliage, including palm-like plants. In the background, a white car and a red car are visible near a building. A red stop sign is also visible on the left side of the road. The road is flanked by a brown mulch area with orange survey flags. A white text box with red text is overlaid at the bottom of the image.

**Summerwoods Rear Access Road
Proposed Gate at asphalt transition**
