

BOCC AGENDA ITEM

Item Title: Limitation of Load Size Guidance from Board

Date: 5/14/2018

Department: Solid Waste

Background:

The Nassau County Convenience Recycle Center, located at 46026 Landfill Road in Callahan was established in 2009 after closing the landfill. At that time Resolution No. 2009-169 (attached) was approved by the Board of County Commissioners establishing that residential waste delivered to the Recycle Center by Nassau County residents would be accepted, and Exhibit A of the resolution established the types of waste that would be accepted and the fees that would be charged to the residents for the use of the recycle center.

In 2010 Resolution No. 2010-141 (attached) was approved by the Board of County Commissioners, replacing Resolution No. 2009-169. The new Resolution specified that residential construction and demolition debris would not be accepted and Exhibit A of the resolution established that there would not be any fees for residential waste delivered to the Recycle Center by Nassau County residents.

The Recycle Center has seen a significant increase in residential use, and larger loads are being hauled in to the center in trucks and trailers. Nassau County currently pays Camden County Landfill \$24.36 per ton, and the number of tons each year continues to increase.

FY Average Tons Per Month

15/16	87
16/17	93
To date in 17/18	110

Staff would like the Board to consider limiting the size of loads accepted at the Recycle Center. For the Board's reference, photos of trailer loads are attached. The larger loads will fill one of the Recycle Center's 20 yard bins and will weigh approximately 4 tons. Once the bin is full staff hauls it to the Camden County landfill and space for household residential waste becomes temporarily unavailable. An example of acceptable loads may include the following:

- Bagged Household Trash
- Pickup Trucks with pickup beds not larger than 6 x 8
- 5 x 8 and 6 x 10 One axel trailer with no extended sides
- White Goods
- 4 passenger car/pickup truck tires per household per year (Max size P265/75R16)
- Scrap Metals

Establishing the size of loads is expected to cut down the amount of waste that is transported to Camden County and keep the cost for disposal within budget.

Should the Board of County Commissioners decide to make any changes to Resolution No. 2010-141, staff will revise the Resolution for the Board's approval.

RESOLUTION NO. 2010- 141

A RESOLUTION ESTABLISHING FEES FOR CLASSIFICATIONS OF WASTE MATERIALS ACCEPTED AT THE NASSAU COUNTY CONVENIENCE CENTER

WHEREAS, Ordinance No. 91-17, as amended, provides for the imposition of fees for the various classifications of waste materials; and

WHEREAS, Ordinance No. 91-17, as amended, provides for fees to be established pursuant to a resolution adopted by the Board of County Commissioners.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Nassau County, Florida, as follows:

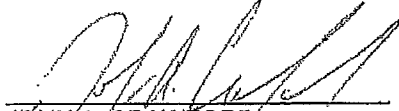

1. Only in-county residential waste delivered by Nassau County residents shall be accepted at the West Nassau Convenience Center. Residential construction and demolition debris will *not* be accepted.
2. The attached Exhibit A sets forth the types of waste that will be accepted at the West Nassau Convenience Center and the fees for those types of waste.
3. The fees set forth in the fee schedule, attached hereto as Exhibit A, shall be hereby adopted and shall be effective October 1, 2010.
4. The County Commission will also continue to work with the Nassau County Solid Waste Task Force to support recycling efforts.

DULY ADOPTED this 8th day of September, 2010.
